Interests

Strongly interested in machine learning and data science, applied probability and statistics and have a great desire to continue my education in this areas.

Education

Belarussian State University, Faculty of Applied Mathematics and Computer Science
Bachelor of Applied Math, September 2019 - June 2023
Was Saint's Petersburg Bioinformatics Institute (algorithmic bioinformatics) 2021 - 2022 student

Experience

Was an intern of EPAM data science summer 2021 internship, worked with time series analysis
Kaggle competitions

Skills

Programming: Python, C++, basic in SQL

Machine Learning: strong and deep understanding of classical ML methods and algorithms, currently focused on increasing my skills in Deep Learning

Languages: English (intermediate), Russian (native)
